Quaid-e-Azam Muhammad Ali Jinnah

Quaid-e-Azam — Guiding Principle For Youth

My young friends, I look forward to you as the real makers of Pakistan, do not be exploited and do not be misled. Create amongst yourselves complete unity and solidarity. Set an example of what youth can do. Your main occupation should be in fairness to yourself, to your parents, in fairness to the State, to devote your attention to your studies. If you fritter away your energies now, you will always regret.

Act

The University of Sufism and Modern Sciences (USMS) Bhitshah Act 2011 was passed by the Provincial Assembly of Sindh on 22 July 2011, approved by the Governor of Sindh on 31 October 2011, titled as "Sindh Act No. XXVIII of 2011".

Vision

Synthesize scientific knowledge with traditional wisdom to resolve complex modern-day issues.

Mission

Conjoin Sufism with modern education to promote and practice harmony, peace, and tolerance for personal and social transformation.

Values

To achieve the mission, we adhere to the core values.

Integration

Promote research and leadership in the indigenous epistemology to mainstream traditional knowledge.

Excellence

Strive for academic excellence across different fields of intellectual/educational endeavors.

Leadership

Develop the leadership acumen of a future generations to better resolve challenges of a globalized society.

About the Prospectus

Prospectus 2025-2026 includes information regarding the University of Sufism and Modern Sciences (USMS), Bhitshah and all other necessary policy related information that a fresh candidate may need to pursue study in various programs offered by USMS. Besides, information of programs offered, the prospectus includes details of academic policies, events, scholarships, activities, and facilities for students of USMS. This prospectus will serve as a compendium throughout students' stay at the University giving them subtleties of educational programs and courses for the degree program they join, as well as the regulation for registrations in these programs. The prospectus 2025-2026 will serve as a useful guide in planning out students' academic journey and ensures well learning experience for them at USMS- Bhitshah.

About The University

The University of Sufism and Modern Sciences (USMS) is located in Bhitshah, Matiari District, the home of the shrine of the Sufi saint Hazrat Shah Abdul Latif Bhittai. The university was the dream and vision of former President Mr. Asif Ali Zardari, who sought to provide quality higher education to the people of rural Sindh at their doorsteps.

The charter of the University of Sufism and Modern Sciences, Bhitshah, was approved on 21st November 2011 under the Sindh Act No. XXVIII of 2011 and later amended through the Sindh Universities and Institutes Law (Amendment) Act, 2018. Initially, it was established as a campus of the University of Sindh, Jamshoro, but it now functions as an independent institution.

The University of Sufism and Modern Sciences, Bhitshah, offers undergraduate programs in Business Administration, Commerce, Computer Science, Information Technology, Education, and English (Linguistics and Literature).

In addition, the university offers postgraduate programs, including MS Data Science, MPhil Education, and MPhil Management Sciences.

Vice Chancellor's Message

First of all, I congratulate you all for choosing this University which emphasizes seeking modern knowledge but at the same time lays much significance to Sufism.

It is an honor and privilege to address you on the significant and enriching link between Sufism and modern sciences. These two domains, while seemingly disparate, converge in profound ways to offer a holistic understanding of existence, bridging the tangible and the intangible, the empirical and the mystical.

Prof. Dr. Arabella Bhutto

VICE CHANCELLOR

University Of Sufism And Modern Sciences, Bhishah, Sindh, Pakistan

Sufism, a mystical dimension within Islam, emphasizes an inward journey towards divine truth. Rooted in love, compassion, and humility, Sufism seeks to transcend the material world, fostering a deep connection with the divine essence. The teachings of Sufism remind us of the interconnectedness of all beings, urging us to look beyond superficial differences and embrace a universal spirit of brotherhood, tolerance, love, and peace. Modern sciences, on the other hand, represent the pinnacle of human intellectual achievement in understanding the physical world. Through the scientific method, we have unlocked numerous secrets of nature, leading to groundbreaking advancements in technology, medicine, and our comprehension of the cosmos.

At first glance, Sufism and modern sciences might appear to inhabit separate realms – one spiritual and the other material. However, a closer examination reveals that they are not mutually exclusive but rather complementary. Both are driven by a quest for truth and understanding, albeit through different methodologies and perspectives. By integrating the insights of Sufism with the discoveries of modern sciences, we can cultivate a more comprehensive and meaningful understanding of life and the universe.

My vision is to embed in our graduates the lenses through which they become able to seek modern knowledge with core values that are of paramount significance in building up the individual character, a cohesive society, and practice peace, tolerance and love globally. I reiterate that the Sufi teachings offer the solution to modern-day challenges that led the world in hatred, desperation social and economic issues. For instance, environmental science is another domain where the convergence of Sufism and modern sciences can yield profound insights. Sufism, with its emphasis on the unity of existence and reverence for nature, provides a powerful ethical framework for environmental stewardship. It encourages us to view the natural world not as a resource to be exploited but as a sacred trust to be preserved and cherished. By integrating this perspective with the empirical knowledge of environmental science, we can develop sustainable practices that honor both the planet and its inhabitants.

Besides welcoming you all to the University of Sufism and Modern Sciences Bhitshah, I look to affirming pledge from you all that after your successful and peaceful stay in the university during academic tenure you will uplift the flag of Sufism on one hand and modern knowledge on the other hand to provide a solution to modern world challenges at society, corporate, national and global level.

Together, we can illuminate the path to a deeper understanding of ourselves, each other, and the universe we inhabit. By fostering a dialogue between these two rich traditions (i-e Sufism and Modern knowledge), we can create a more holistic and enlightened approach to knowledge, one that honors both the material and the spiritual dimensions of existence.

Department of Information and Computing

INTRODUCTION

Information Technology is a driving force behind the booming economy and has led it to grow beyond borders. The world has witnessed its importance in today's global village. The Faculty of Science and Technology at the University of Sufism and Modern Sciences Bhitshah was established to produce quality professionals in computing who would match the required skills needed by the industry and contribute to the national economy. The programs offered within the faculty are designed to teach the latest technologies to generate qualified human resources. Pakistan is a developing country, and Information Technology (IT) is playing a vital role in strengthening its economy by producing world-class IT solutions.

Department of Information and Computing provides skills and infrastructure to enable our students to achieve their educational goals and learn technologies to function effectively as computer professionals throughout their careers. The Department of Information & Computing is committed to providing students with dynamic teaching and research opportunities. We encourage students to undertake applied research to produce turnkey solutions for socio-economic indigenous and international problems. Our departments are equipped with state-of-the-art IT Infrastructure, high-performance research and computing laboratories, multi-media equipped classrooms, and experienced faculty to produce market-oriented graduates. We are committed to offering high-quality computing education to our students, which enables them to acquire fundamental knowledge, critical thinking, and software development skills to excel in their profession. Our academic staff members are committed to delivering technical knowledge and transferring social skills to enable the students to explore society's potential. Our vision is to work closely with industrial partners and international collaborators to push the developed technologies from our labs to the market to establish a university building economy.

Department of Education

Introduction

Education plays a leading role in improving the lifestyle of children. It is a lifelong continuous process responsible for bringing change in knowledge, skills and experiences of individuals transferred from one generation to the future generation. It is the main key to opening new doors for the economic progress and prosperity of the country for facing the challenges of the modern era of information and communication technology. Only an educated and highly trained teaching force equipped with modern pedagogical skills to be used in classrooms can bring change in youth for competing with the world community in the best manners.

Teachers are considered the greatest national asset, having great responsibility to educate the children on the right direction for meeting the future demands and expectations of society in befitting manners. It is dire need of the time that our teaching force must possess updated knowledge, professional competency in knowing advanced laws of learning, awareness and understanding students' psychology, and full command over their subject matter. As they are supposed to transfer culture, moral values, religious beliefs, social norms and traditions and civilization of the society to the future generation. They can play a vital role in achieving national educational goals. This objective can only be achieved successfully if the teachers were fully trained on an advanced level so that they can teach students efficiently in classrooms by using ICT. Like other countries of the world, in Pakistan, maximum efforts are being carried out at all levels to improve the quality of teachers by launching various pre-service and in-service training programs.

The Department of Education is offering B.Ed. (Hons) 4 years, 8 semesters), B.Ed. (2.5 years, 5 semesters), B.Ed. (1.5 years, 3 Semesters) Degree Programs and ADE Elementary (2 years, 4 Semesters). It has developed its curriculum to meet the challenges of future requirements in the field of education and fill the gap between the required and the present demands of skilled, motivated, and professionally trained educationists.

VISION

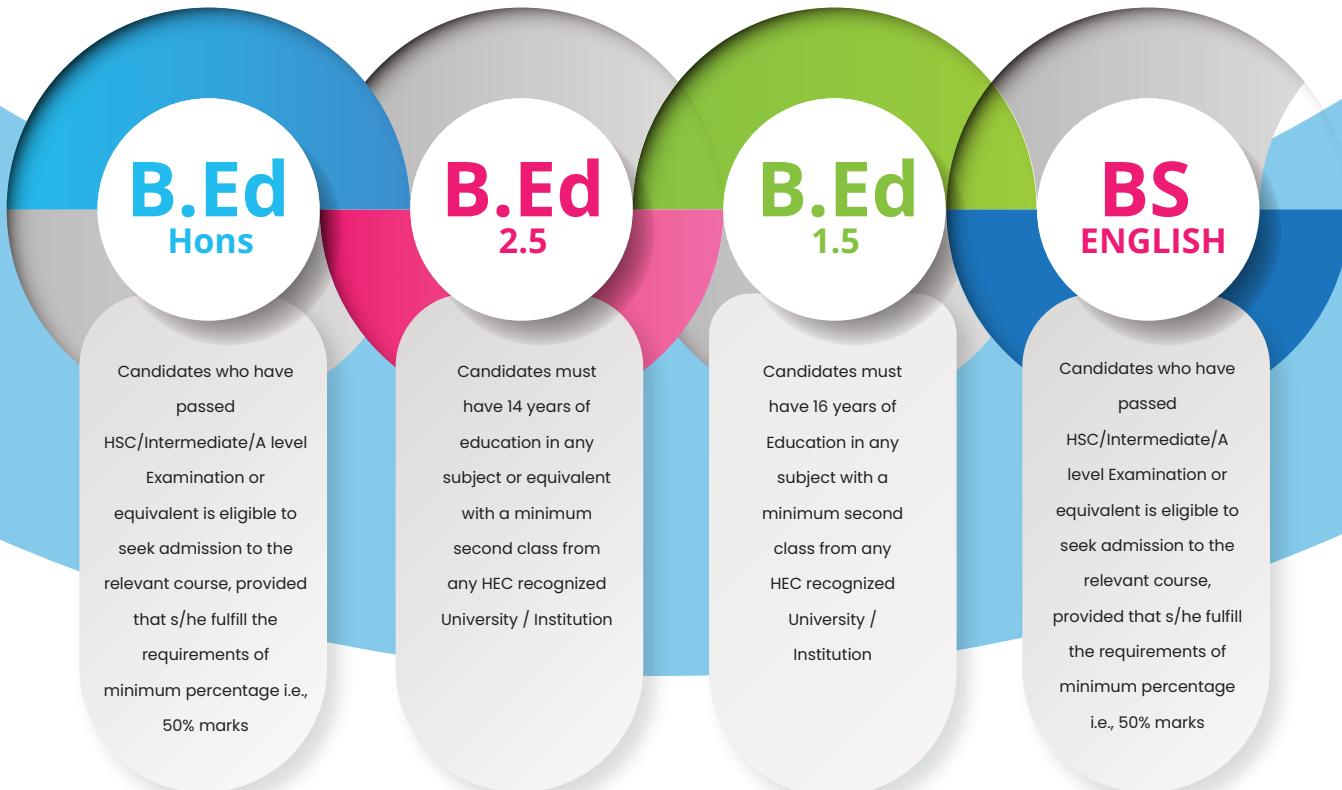

To prepare dynamic leaders and practitioners in teaching, research and management having content excellence, pedagogical competence, commitment and integrity; who may ensure quality and sustainable development at all tiers and sectors of education.

MISSION

- ★ We offer nationally and internationally accepted academic programs to
- ★ produce:
 - Classroom teachers to fulfill the needs of public and private schools of various
 - ★ levels i.e. primary, secondary and higher secondary.
 - ★ Educational Leaders and Managers
 - ★ Educationists/Researchers/Curriculum Developers etc.
- Provide certificate and degree programs through continuous and virtual
- ★ education modes for teachers of tertiary level.
- ★ Integrate pre-service with in-service Teacher Education.
- Make the university a thriving hub of educational research and knowledge creation.

ATTENDANCE

- Attendance in classes is mandatory.
- A student should have at least 75% attendance to appear in the Final Semester Examination.
- The eligibility attendance of Theory/ Practical for late admitted students to First Semester of First Year only shall be calculated from the date of admission.

CGPA REQUIRED FOR THE COMPLETION OF UNDERGRADUATE DEGREE

- For completion of the degree, the minimum qualifying CGPA for undergraduate students is 2.00.

In case a student secures less than 2.00 CGPA (minimum qualifying CGPA) at the end of final Semester, s/he may be allowed to get re-admission in one or more courses, in which his/her Grade is below C, along with the forthcoming semester, provided that s/he is not debarred under the CGPA Improvement Regulation and time duration specified for the program.

COMPUTATION OF SEMESTER GRADE POINT AVERAGE (GPA) AND CUMULATIVE GRADE POINT AVERAGE (CGPA)

This is a figure ranging preferably from 0.00 to 4.00 be used to indicate the performance of a student in the semester

- concerned.
- $GPA = \frac{\text{Sum over all courses in a Semester (Course Credit Hours} \times \text{Grade Point Earned})}{\text{Total Semester Credit Hours}}$

$CGPA = \frac{\text{Sum over all taken courses in all Semesters (Course Credit Hours} \times \text{Grade Point Earned})}{\text{Total Credit Hours taken in all Semester}}$

Distribution of Marks For Assessment

Nature of Examination	Weightage (Min/Max)
Quizzes/Assignments/Presentations	10%
Mid Semester Examinations	25%
Practical/ Viva Voce	25%
Final Examination	40%

In each semester, students may be required to appear in quizzes, tests, midterms, final examinations, presentations (individual/group), group discussion, and submit projects/assignments/lab reports etc. These assessment marks (to be determined by the teacher concerned) will have different weightage contributing towards the overall assessment in percent marks. This weightage may be determined on the basis of following guidelines:

Distribution of Marks for assessment for subjects with 3+1 and 2+1 CH and 3+0 and 2+0 CH

- ◆ There will be no Supplementary/Special Examination in a Semester System; if a student fails in a course, s/he is required to repeat it.
- ◆ Examinations has two portions, 60 and 40 percent, 60 for assignment, presentation and mid semester examination and 40 for final examination.
- ◆ If student fails in final examination, he/she will also be considered as "Fail" in the 60 percent examination portion and would be re-admitted in the same subject/ course.
- ◆ Note: In case of a course with the composition of 4(3+1), (03 credit hour theory and 01 credit hour practical) the weightage for the practical may be considered 25%.

Grading Policy

To rate student's academic performance & (CGPA) it is computed at the end of Semester, the following grades are applied

Grading System for Theory / Practical Examination(100 Marks)

Marks	Grade	Grade Points	Percentage Obtained Semester System
85.00 and above	A	4.00	85 and above
80.00 - 84.00	A-	3.70	80-84
75.00 – 79.00	B+	3.30	75-79
71.00 – 74.00	B	3.00	71-74
68.00 – 70.00	B-	2.70	68-70
64.00 -67.00	C+	2.30	64-67
61.00 – 63.00	C	2.00	61-63
58.00 – 60.00	C-	1.70	58-60
54.00 – 57.00	D+	1.30	54-57
50.00 -53.00	D	1.00	50-53
Below 50.00	F	0.00	Below 50

Grading System for Theory / Practical Examination (50 Marks)

Marks	Grade	Grade Points	Percentage Obtained Semester System
42.5 and above	A	4.00	85 and above
40.00 -42.00	A-	3.70	80-84
37.50 -39.50	B+	3.30	75-79
35.50 -37.00	B	3.00	71-74
34.00 -35.00	B-	2.70	68-70
32.00 -33.50	C+	2.30	64-67
30.50 - 31.50	C	2.00	61-63
29.00 -30.00	C-	1.70	58-60
27.00 - 28.50	D+	1.30	54-57
25.00 - 26.50	D	1.00	50-53
Below 25.00	F	0.00	Below 50

Policy Against Harassment

The university is strictly adhered to the HEC defined Policy against harassment in Higher institutes of Pakistan. However, a committee has been formed for dealing with all cases of harassment at University of Sufism and Modern Sciences Bhitshah.

Higher Education Institutions (“HEIs”) are highly consequential institutions in society that are dedicated to the pursuit and dissemination of knowledge. Members of the HEI community have several important rights and privileges, central among which is the right to pursue inquiry and search for knowledge without hindrance from unlawful or otherwise unacceptable constraints. The Higher Education Commission (the “HEC”), which has been mandated by law to prescribe conditions under which HEIs in the country may be opened and operated, takes very seriously the freedom of teachers, researchers, scholars, students and other members of the HEI community to live and work in a safe environment in which their dignity is protected.

Effective implementation of harassment Act might be inevitable to acquiring gender equality in higher education institutions and diminishing the influence of patriarchal and conservative mind set. This policy intended to explore implementation of the harassment Act (2010) in universities. Although Government of Pakistan has enforced harassment Act and Higher Education Commission (HEC) made it mandatory to implement. Various incidence of harassment has been reported by study participants and in certain cases, victims are asked to resign the jobs as they refuse or fail to comply with the drives of male colleagues and heads. Lack of state and organizational control leads women to be silent and tolerant of harassment and ultimately, it encourages perpetrator to continue the derogatory behavior.

According to the HEC's guidelines, the complaint cell is supposed to be headed by a full-time trained professional, designated as a harassment monitoring officer. It has also been advised that the head should preferably be a female, considering the fact that a majority of complaints are reported by female students.

Policy Against Harassment

The policy has categorized the acts of asking a female student to visit an office after office hours, to meet outside university premises and sexual jokes or written or spoken references as sexual harassment. Intimidating a student about damaging their reputation, commenting on an individual's physique, staring, inquiries about a student's sexual experiences and acts connoting sexuality, among other acts, also amount to harassment.

Ideally the Higher Education Institutes (HEIs) are places where administrators, faculty, employee/staff, and students (all levels/categories) work and learn in an environment free from intimidating, offensive, and hostile behaviors. Sexual harassment vitiates such an environment. Therefore, each member of the HEI campuses must have mechanisms to provide their members with the opportunity to develop intellectually, professionally, personally, ethically, morally and socially in a fair and humane environment.

Office of Research, Innovation and Commercialization (ORIC)

ORIC USMS was established in 2016. The department is actively engaged in research activities and is committed to motivating and facilitating the academic faculty to prioritize research as a key driver for sustainable economic growth and the knowledge economy of the future. ORIC-USMS provides both strategic and operational support for research programs across the university and plays a central role in enhancing the outcomes of faculty research. The focus of these efforts is on transforming inventions (pure knowledge) into innovations (products and production processes) that can positively impact community welfare.

The primary functions include:

- Supporting the strategic research directions and policies of the university
- Strengthening the integration of research and education at all levels
- Increasing and diversifying external research funding
- Translating research for the benefit of society
- Enhancing university-industry collaborations
- Promoting entrepreneurship, technology transfer, and commercialization activities to support economic growth
- Advancing and improving multi-disciplinary research initiatives

Dr. Qamaruddin Maher
In-charge Director of ORIC
oric@usms.edu.pk

Mr. Atta Muhammad
Deputy Director ORIC
oric@usms.edu.pk

VISION

To promote and strengthen a vibrant research culture within USMS and to build strong linkages between the university and industry. This will accelerate the creation and dissemination of knowledge, thereby fulfilling the objective of establishing USMS as a leading higher education institution.

MISSION

- To expand and regulate research activities at all levels in USMS through well-defined research directions and policies.
- To promote and strengthen the research and development culture, enhancing the role of the industrial sector in supporting both local and national economies.
- To foster academia-industry partnerships in technology transfer and commercialization activities.

IT Services

WEB SERVICES

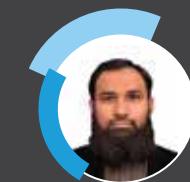

The USMS website provides the information about the academic and administrative departments, announcements about undergraduate admissions, examination results, pre-admission test results, vacancy announcements and other essential information to the students and to the public in general.

HIGH SPEED INTERNET CONNECTIVITY

The University's 5 Access Points (Wi-Fi Services) offers seamless and uninterrupted wireless (Wi-Fi) Internet services around the building which provide free Wi-Fi access to the students and faculty across the university. High speed Internet is connected through PERN (Pakistan Education and Research Network) at 32 Mbps speed available 24/7 hours for academic purposes.

Dr. Qasim Memon
Director IT Services

Zahid Yousif Memon
Network Manager

Mr. Salman
Assistant Director Networking

MICROSOFT OFFICE 365

Under PERN HEC Pakistan's umbrella, the university is registered with Microsoft Office 365 to assist teachers and students in video conferencing and online courses.

SMART CLASS ROOM

With advance technology, University of Sufism and Modern Sciences, Bhitshah is providing smart classroom facility, from which students can get a chance to study in a better environment.

BLENDED / HYBRID LEARNING MODE

LEARNING MANAGEMENT SYSTEM

- ◆ Due to COVID-19 Pandemic, blended learning was committed at USMS in early June 2020. It is an approach to blending face-to-face teaching systematically with online learning, where people learn at different times in different locations.
- ◆ First Academic Council was resolved that the action taken by Vice Chancellor under emergency in connection with academic activities and Blended/ Hybrid Learning Mode is approved and be noted as satisfactory.
- ◆ USMS Bhitshah has a fully integrated, 24/7, Learning Management System available to cater for and support online academic events.
- ◆ USMS has also integrated the latest version of video conferencing tools Big Blue Button with LMS that helps conduct online lectures and helps maximize the faculty student interaction. Moreover, LMS is designed for faculty members to create, update and maintain the courses information.

Our Facilities

HIGH POWER SOLAR SYSTEM

University of Sufism and Modern Sciences, Bhitshah has its own High power Solar System Plant, which gives 24/7 electric facility to the whole campus.

R.O PLANT

To provide good water facility the University has installed RO (Reverse Osmosis) Plant facility, so that students may drink pure and healthy water .

TRANSPORT FACILITY

The University of Sufism and Modern Sciences (USMS), Bhitshah, is committed to providing safe and reliable transport facilities for its students, faculty, and staff. To further strengthen the transport system, four brand new Hino buses have been purchased and will be delivered by October 2025. These buses will commence operations from 1st November 2025, exclusively to facilitate newly enrolled students. Each bus is equipped with comfortable, cushioned seating, wide windows for ventilation, and modern safety features. Moreover, they will be operated by professionally trained and disciplined drivers, ensuring a safe, punctual, and comfortable commuting experience.

In addition to the newly acquired buses, the University already operates a Toyota Coaster (Jamshoro – Bhitshah) and a Hiace Van (Hyderabad – Bhitshah) to cater to students, faculty, and staff. Furthermore, through a transparent tender process, the University has arranged private buses and Hiace vans covering routes from Matiari, Hala, Tando Adam, Shahdadpur, and Nawabshah, ensuring access for students from surrounding districts.

These comprehensive arrangements reflect USMS's dedication to supporting its students and staff by making education more accessible and convenient.

Central Library

USMS Central Library contains more than six thousand books on various disciplines i.e. Business Administration, Commerce, Education, Computer science, Information Technology, Software Engineering, Artificial Intelligence, Law, Peace and Sufism studies, English Linguistics and Literature, Sindhi, and Urdu Literature. The library has access to online e-resources under Higher Education Commission Digital Library Program. In addition to provide research support to research scholars library holds a rich collection of research journals, magazines, newspapers, research thesis and projects done by the research scholars of the university on different subjects. The collection of books is updated continuously and new books are acquired on the recommendations of most experienced faculty members as well as on the demand of students which makes collection most suitable and informative for all students. There is great creative and conducive learning environment for all the readers.

- Inter Library Loan Services
- Help Desk

Quality Enhancement Cell

The Higher Education Commission of Pakistan since its inception in 2002 has been striving hard to improve the standard of higher education. One of the major challenges the tertiary education system of Pakistan is facing about the quality of teaching and research. Mission of the Higher Education Commission is to make concerted efforts to improve the quality of higher education and to move university education to meet international standards in the provision of high-quality teaching, learning, research and service. HEC executes its policies through Quality Enhancement Cells [QEC], established in universities/ Higher Education Institutes [HEIs], in Pakistan. Quality Enhancement Cell, alongside undertaking many other measures for enhancing academic quality in HEIs, also implements quality assessment mechanism of academic programs, called Self-Assessment Process. The outcome of this process is Self-Assessment Report [SAR]. Student is an important participant in the process as well. Students' feedback always contributes a lot in achieving the ultimate goals of outcome-based education.

Quality Enhancement Cell (QEC) was established on March 21, 2019 at USMS to monitor the quality of education, through a well-structured evaluation and feedback mechanism. QEC maintains and protects the standards and enhances the quality of teaching, examination system, evaluation and preparation of self-assessment reports.

Quality Enhancement Cell (QEC) at USMS is committed to enhance the quality of education of all departments by implementing an effective and efficient quality assurance system fulfilling the requirements of all the stakeholders.

University Project

The University of Sufism and Modern Sciences Bhitshah came into existence based on the concept "Sufism" which is one of the distinct research field unique to our university as a result of "Sindh Act No: XXVIII of 2011" and for the sake of university establishment efforts made by Prof. Dr. Parveen Munshi, Former Vice Chancellor, to arrange land acquisition with support of Government of Sindh sheltered it legally bound in May 2019.

The Government of Sindh included this project under Annual Development Program (ADP # 534/2019-20) approved with cost of Rs. 1042.776 million currently called On-going scheme (ADP # 1002/2024-25) with an allocation of Rs. 150 million for 2024-25 including following components:

Engr. Faheem Ahmed
Director Works & Services

On-going components

- Construction of Security Compound Wall,
- Main Entrance Gate and Security Rooms
- Construction of Internal Roads
- Construction of Academic Block
- Construction of Guest House
- Construction of Girls Hostel
- Internal Drainage & Sewerage works

The execution of all the above components is running with satisfactory progress. However, to overcome the delays in execution efforts continued to fight the pandemic of COVID-19 and Torrential rains in the region during 2022-23.

The long-lasting valuable efforts/contribution by the former Vice Chancellor Prof. Dr. Parveen Munshi will ever be remembered for maintaining excellent level of education at par with national universities, especially in Sindh Provisions.

Presently Prof. Dr. Arabella Bhutto Vice Chancellor is very keen to continue the dream of quality education come true for achieving the goals set-forth under five-year plan.

Engr. Faheem Ahmed Soomro Director Works & Services is putting his energetic efforts for the completion of constructional activities along with his Technical Team and is hopeful to meet the challenges of the modern era to reach the targets in the plan period.

Center for Sufi Studies, Research and Publication (CSSRP)

Center for Sufi Studies, Research and Publication (CSSRP) is an integral part of the University of Sufism and Modern Sciences (USMS) at Bhittshah, Sindh, Pakistan. It was established for academic research and inventive interventions. The center focuses on exploring the new methods, standards techniques that enhance the research skills of scholars in Pakistan and over the world.

Our center is committed to the three pillars of Sufi education: study, research, and publication. Through comprehensive academic programs, we offer a diverse range of workshops, and seminars that explore the fundamental principles of Sufism and the spiritual practices that cultivate inner awakening. These programs/Seminars/Workshops provide students with a holistic understanding of Sufism's historical, cultural, and philosophical dimensions, enabling them to appreciate its relevance in contemporary society.

Dr. Zafar Iqbal Junejo
Consultant for Centre of Sufi Studies,
Research and Publication (CSSRP)

Sufi Art Forum (SAF)

The Sufi Art Forum (SAF) at the University of Sufism and Modern Sciences (USMS), Bhitshah, is a dynamic initiative launched under the visionary leadership of Professor Dr. Arabella Bhutto, Vice Chancellor USMS. Working under the umbrella of the Office of Research, Innovation and Commercialization (ORIC), SAF is designed as a vibrant platform where students creatively engage with the timeless teachings of Sufism and transform them into powerful expressions of art, culture, and innovation.

For students, SAF is more than a forum, it is a journey of discovery and growth. It allows young minds to channel their creativity through theater, music, and visual arts, while also gaining practical exposure to event management, cultural entrepreneurship, and professional collaborations. By engaging in performances, exhibitions, and workshops, students not only enhance their artistic talents but also develop vital life skills such as confidence, teamwork, leadership, and communication.

Importantly, SAF also creates avenues for career development and entrepreneurship. Students can participate in commercial projects, cultural events, and partnerships that generate income and professional recognition. This blend of creativity and enterprise equips them with the tools to succeed in the modern world, while staying rooted in the timeless wisdom of Sufi philosophy.

Through the Sufi Art Forum, USMS is cultivating a new generation of artists, leaders, and innovators who carry forward the message of Sufism in ways that inspire communities locally and globally. SAF is therefore not just a cultural initiative, it is a movement of youth empowerment, artistic expression, and social harmony.
